Product Summary

Great tool for quickly and quietly pushing the door away from the door jamb. Manufactured from high strength heat treated steel and aluminum. Just a few pumps from the 8000 lb. hydraulic pump and you're in.

Product Description

Great tool for quickly and quietly opening inward swinging doors. Manufactured

from high strength heat treated steel, the Ferret Tool takes on wood and steel frame doors. With just a few pumps from the 8,000 psi hydraulic pump the lockset and deadbolt are fully defeated.

Compact and easy to use, the DS4 provides 4" of quiet and reliable force. Welded strike plate on back of tool allows operator to set the tool deeply into door gap. The hydraulic pump includes a spring return handle and can be used by hand or foot. 6' hose allows the user to be away from the doorway and use both hands during operation.
