- Tactical Ladder - 22' ( )

- Tactical Ladder - 26' ( )

## Product Summary

The Tactical Ladder by Little Giant is a critical tool for SWAT teams, officers and military whose work often happens at night and in low-light areas or where simplicity and reliability are required.

With a subdued black surface finish, this ladder is proven to give boarding access on vessels, enter windows, and insert snipers where simple mechanics, stealth and reliability really matter.

- Built to withstand heavy use with super-strong, super-light aerospace-grade aluminum - Innovative locking hinge and telescoping sides when problem solving and adaptability are critical with up to 28 unique configurations - Easy-to-use mechanisms for improved speed and stealth - Especially useful for emergency assaults and dynamic entries through windows and over fences, walls and roofs - Versatile enough for almost any assault scenario. ## Product Description Tactical Ladder

Versatile, lightweight and high-quality tactical ladder that exceeds all OSHA and ANSI standards and is rated extra heavy-duty, industrial grade. Subdued black-anodized armor reduces light reflection and helps prevent early detection. The 17' model is especially easy to stow in tactical vehicles.

These ladders are designed specifically for tactical military, SWAT and law enforcement use. The Tactical Ladder is built to withstand heavy use with super-strong, super-light aerospace-grade aluminum and is rated to hold up to 300 lbs. (ANSI Type 1A-300 lbs). The Tactical Ladder's innovative locking hinge and telescoping sides let you adapt to various situations with up to 28 unique configurations. The Tactical Ladder is especially useful for emergency assaults and

dynamic entries through windows and over fences, walls and roofs.
