

EXTENDABLE RATPAK™

Mobility and operational excellence! These extendable entry tools have been in use throughout the world by law enforcement and military personnel for over 10 years. The tools have been engineered for real world scenarios and are manufactured in the USA.

Kit includes an extendable prybar, bolt cutter and sledge hammer all carried in a custom backpack. These tools have been designed to extend and lock into full length position quickly with very little operator effort. Through customer evaluations and internal testing, these tools have a proven track record of durability and performance.

The backpack is produced in the USA and includes:

- Adjustable padded shoulder straps
- Adjustable padded hip belt
- Three pouches with upper straps to secure tools
- Cover flap with two tie downs
- Semi-rigid backing material for strength and comfort
- Loop handle on top to lift pack
- Velcro pad for identification label
- Backpack material: DuPont 1000 denier nylon Cordura (Black and Coyote Tan available)

Extendable RatBar™

Extendable RatBar™

Extremely light, portable and rugged telescoping prybar. This special operations tool is the perfect solution for many real world scenarios. It provides versatility and power yet is compact and light enough to be easily carried or stowed. The perfect balance between weight and function.

The tool includes an forged steel pry end secured to a telescoping shaft. The thin adze end is perfect to pry open doors, windows, gates, etc. The telescoping shaft is constructed from high strength Chromoly steel. It extends from a compact ~ 19" to 30" for maximum leverage. The proven push button design locks the shaft in the open and closed position allowing the tool to be used open or closed.

Tool length: 17.95" closed - 29.55" open
Weight: 5lbs 14oz.

PBX30

Extendable Bolt Cutter

Lightweight, high quality bolt cutter with telescoping handles

Handles on these engineered bolt cutters extend from a compact 19" up to 27" for maximum cutting power. Push buttons automatically lock handles in open and closed positions allowing for use in both conditions. Locking mechanism has been designed to automatically lock handles into position.

Tool is produced in the USA and includes:

- 3/8" cutting capacity (larger cutting jaws available)
- Heat treated black oxide blades (Replaceable)
- Black anodized handles lock in open and closed position
- Overall length: 19" collapsed; 27" extended
- Weight: 5.6 lbs

BCX30

EXTENDABLE RATSLEDGE™

High quality telescoping tactical sledge hammer. Made in USA, this sledge is made to last. The innovative design allows the tool to be used in either fully closed or fully extended. Locking pins automatically secure handle into either position. Large bottom flange provides excellent control and confidence during use.

The standard tool includes a 8 lbs drop-forged, heat treated steel head, aluminum alloy handle and stainless steel locking mechanism.

Tool includes:

- Telescoping handle locks in open and closed position
- Overall length: 20" (51cm) collapsed; 30" (76cm) extended
- 8 lbs. (3.6Kg) head standard
- 6 lbs (2.7Kg) head available by special order
- Anodized black handle

SHX30-8 (8 lbs head)
SHX30-6 (6 lbs head)
