

# Hydraulic RatKit™

Highly portable and effective multipurpose hydraulic breaching kit. Choose between using the 5 ton Door Pusher that forces doors in directly or quickly install the Jamb Spreading extension rod to quietly spread the door jamb and swing the door open. Kit is available with optional bolt cutter and low profile spreader make this kit ready for any mission.

Quick disconnect fittings allow operator to switch tools quickly. The tools are powered by the quiet manual pump. Spring loaded handle allows it to be operated with a foot to keep hands free. High quality six foot long hydraulic hose is included. All tools and heavy duty carry bag are made in the USA.

Operating pressure: 10,000 psi (720 bar)
