

# The Titan™

"TS" Models Pictured Above

"PB19-T" Pictured Above

Superior strength, durability and lightweight titanium makes the Titan™ the breaker bar of choice for our Special Operations Community. Easily carried in a MOLLE system, pack or pocket, this bar is definitely a good thing in a small package. Hand forged with tapered, curved ends for easy insertion and maximum leverage.

**Material:** Domestic 6AL/4V Grade 5 Titanium: Aircraft structural components, high-performance automotive and marine applications.

| Part Number | Dimensions      | Weight   |
|-------------|-----------------|----------|
| PB15-TS     | 15"x1.25"x.375" | .70 lbs  |
