

## RAMPAK PRO

The Rampak Pro is the latest addition to the Rapid Assault Tools line of mechanical breaching kits. The Rampak Pro comes complete with all of the tools needed for even the toughest breaches. This high quality kit includes a lightweight composite framed backpack (includes rain fly) that is designed to be worn with a plate carrier. Each Rampak Pro includes five specially selected tools: 30" Halligan, 24" Halligan, 23lb Composite Ram, 24" Bolt Cutters, and a Mini Sledge Hammer. These tools give professional entry teams the equipment they need to breach inward and outward opening wooden and steel doors.

### Features:

- Composite framed backpack will not permanently deform.
- Rain fly included to protect tools during transport.
- MOLLE loops on belt and rear of pack for attachment of auxiliary supplies
- Hook and loop patch mounting location on back of pack
- Quick release shoulder straps allow the pack to be quickly dropped in an emergency
- One piece forged halligans will stand up to years of regular operational use
- Bolt cutters feature replaceable blades
- Easy to use velcro straps allow each tool to be removed and replaced independently
