

Hydraulic Rebar Cutter: HRC625

Features

- **Lightweight and portable**
- **Guillotine style cutter offers higher performance with less risk of jams**
- **Large cutting capacity, wire rope and rebar up to .63"**

The HRC625 integrates into any Rapid Assault Tools 10,000psi hydraulic power unit (*manual or electro-hydraulic*). The tool features a hinged head allowing for quick cable or bar insertion. The replaceable blade cuts materials cleanly. Suitable for rebar and wire rope (steel cable). When pressure is released the internal spring quickly re-sets the tool allowing for multiple cuts back to back. The cutting blade is user replaceable.

Tech Specs

Weight: 2.8kg // 6.3lbs
Size: 235x86x64mm // 9.25x3.375x2.50in
Cutting Diameter: 16mm // .625in
Cut Power: 7.8 Ton // 15,600 lbs
Working Pressure: 690 Bar // 10,000 PSI
