

Non-Conductive RatCutter™

High quality, electrically non-conductive bolt cutters. The high strength forged steel cutting jaws are adjustable for a complete precision cut. Fiberglass handles are optimized for stiffness and reduced weight. The black vinyl grips offer user comfort and control.

- 3/8" Capacity for high-tensile steel bolts, and chain
- Maximum hardness to be cut: Brinell 455, Rockwell C48
- Non-metallic reinforced ferrules
- Vinyl hand grips

Part Number	Overall Length	Weight	Max tip opening
BC24-NC	24"	6.2 lbs	0.75"
BC30-NC	30"	7.4 lbs	1"
