

X-RatCutter™

Lightweight, high quality bolt cutter with telescoping handles

Handles on these engineered bolt cutters extend from a compact 21" up to 28" for maximum cutting power. Push buttons automatically lock handles in open and closed positions allowing for use in both conditions. Locking mechanism has been designed to automatically lock handles into position.

Tool is produced in the USA and includes:

- 3/8" cutting capacity (larger cutting jaws available)
- Heat treated black oxide blades (Replaceable)
- Black anodized handles lock in open and closed position
- Overall length: 21" collapsed; 28" extended
- Weight: 5.6 lbs
