

Lightweight Telescoping Tactical Ladder

Lightweight and quick set-up. This is the “Go to” ladder for many law enforcement and military scenarios. Weighs only 17 lbs. yet is rated for 300 lbs. capacity (ANSI Type 1A-300 lbs.).

This ladder has been developed for fast moving, varied environments. Ladder can quickly be adjusted to four different heights using the innovative pull latches. The ladder extends from 4’ up to 7.5’ allowing for an OSHA approved 10’ reach.

Upper section can quickly be removed and used as second ladder! Both sections have high grip rubber foot pads for excellent stability.

Specifications:

Height: from 4’ up to 7.5’

OSHA reach: 10’

Width: 16” top and 24” bottom

Weight: 17 lbs.

Material: High strength aluminum alloy

Catalog#TL10

Upper section can be used as its own ladder!
